Protect-All Resilient Flooring

It's Durable

Protect-All withstands diverse weight loads and temperatures, from steamy environments to subzero conditions. Its durable design effectively resists impacts and punctures commonly encountered in high-traffic areas. The monolithic formulation eliminates wear layers, potentially lowering annual maintenance expenses compared to alternative resilient flooring choices.

It's Sustainable

Crafted from more than 90% recycled materials, Protect-All is proud to play a role in diverting millions of pounds of vinyl waste from landfills each year. By choosing Protect-All, you not only opt for an aesthetically pleasing and durable flooring solution but also contribute to sustainability efforts. Your projects may be eligible to earn credits with the U.S. Green Building Council, as Protect-All embodies a commitment to both visual appeal and environmental responsibility.

It's Comfortable

Protect-All stands out as the optimal choice in delivering underfoot comfort and safety. With its 1/4-inch thickness, it reduces leg fatigue and absorbs sound, resulting in reduced noise levels. In addition, designed to boost footing confidence, Protect-All Flooring is high-traction certified*, offering extra protection in slip-prone areas.

It's Sanitary

Protect-All flooring excels in maintaining a sanitary environment. Resistant to mildew and bacterial growth, it exhibits an impervious nature to water absorption. Even when exposed to chemicals, animal fats or grease, it remains non-corrosive, making it the superior choice for hygiene. In addition, Protect-All withstands routine cleaning without the need for waxing or stripping.
